Re: Petroleum Cleanup at 7100 2nd Avenue S. W.

Dear Ms. Skog:

Douglas Management Company has received the Department of Ecology letter dated August 10, 1998 indicating the department has not received a final cleanup report for the property located at 7100 2nd Avenue S.W. in Seattle, Washington.

We employed Dames and Moore to remove the underground storage tanks located at the facility and in March of 1991 they issued a final assessment report. Our records indicate a copy of this report was forwarded to the department at that time, but we have enclosed another copy for your convenience.

If you have any further questions or need additional information, please contact the undersigned at (206) 439-5519.

Sincerely,

RE: Petroleum Contamination at ALASKA MARINE LINES SHIPYARD in Seattle, WA

Dear Site Owner:

A recent review of Ecology's Leaking Underground Storage Tank database indicates that we have not received a final cleanup report for ALASKA MARINE LINES (SHIPYARD) located at 7100 2nd Avenue Southwest, in Seattle, WA.

The Model Toxics Control Act requires submittal of interim or final cleanup reports within ninety (90) days of completion of the cleanup action. Please submit an update of cleanup activities (performed or planned) to Ecology within thirty (30) days of receipt of this letter. Please provide a copy of any interim or final reports generated for the site which have not already been submitted to Ecology.

You may address the update information to:
